

SPORTS BAR

“Hang out with friends drinking a beer and watch the game”. It’s almost the definition of a sports bar. Ensure your customers get a good view of one or more sports games/races and influence their purchases by showing commercials and the menu.

AOPEN and Polywall offer a flexible and easy-to-use solution for medium-sized operating centres. Create different set-ups and run them on a schedule at your convenience.

Choose, display and change sources, selectable out of a wide change, automatically or manually.

THE PROCESS

The Polywall software allows you to easily integrate almost any digital data or streaming video source.

Simply choose the content to display, plug it into a layout of your choosing, confirm the display scenario and enjoy the game.

THE SCENARIOS

With the AOPEN DEV7610-X6 and the Polywall software you can create pre-sets for every single screen or the video wall as a whole.

Schedule the content, or just a part of the content and don't bat another eye.

Use multiple viewing source types to create the video wall best suited for your sports bar.

Contact Polywall and AOPEN now for information at request@aopen.com or ir@polywall.net

THE DEVICE

The DEV7610-X6 is a powerful media player that runs 6 screens in 4K. It has two HDMI inputs to capture direct video signals from, for instance, digital data or a streaming video source.

THE KEY FEATURES

- 6x 4K @30Hz
- 6x Mini Display Ports and 1x DisplayPort 1.2
- 2x HDMI-in (1.4)
- Multiple source types
